

Liposomal D+K

BYPASSES MOLD'S ABSORPTION BLOCKADE*

HIGHLIGHTS

Innovative liposomal form chemically unique to Vitamins D and K.

Formulated to maximize absorption.

Improved absorption requires smaller doses to reach the desired effect.

RECOMMENDED USE

Take 2 pumps (approximately 0.5mL) and hold in the mouth for 30 seconds before swallowing, or as directed by your healthcare practitioner.

BENEFITS*

Addresses the down-regulation of Vitamin D receptors by certain mycotoxins, compromising absorption and metabolism into the active metabolite.

Promotes lung tissue repair in particle-induced pulmonary injury, such as from mold fragment exposure.

Innate immune modulation, the branch specific to fungal infection prevention.

The addition of Vitamin K ensures that increased calcium absorption from vitamin D gets to the right places, which is important for those with oxalate issues.

Supplement Facts

Serving Size 0.5 mL (approx. 1 pump)

Servings Per Container 100

Amount Per Serving		% Daily Value
Vitamin D (as Cholecalciferol)	62.5 mcg (2500 IU)	313%
Vitamin K (as Vitamin K1 Phytonadione 200 mcg; Vitamin K2 Menaquinone-4 [MK-4] 100 mcg; Vitamin K2 Menaquinone-7 [MK-7] 25 mcg)	325 mcg	271%

Other Ingredients: Water, glycerine, ethanol, tocopherol, phospholipids (from sunflower lecithin), natural citrus oils, natural mixed tocopherols.

Free from gluten, dairy, GMOs.
